700 YARDS

The Shot Scope PRO L2 is a compact and stylish rangefinder providing the golfer with fast and accurate distances on the golf course. Never guess again with Adaptive slope technology correctly adjusting your distance, taking the up and down hills into account to allow for better club selection. Quickly flick the switch to turn slope off, making the PRO L2 legal in tournaments.

Free GPS hole maps

Download the free Shot Scope app to get access to GPS hole maps with any purchase of a Shot Scope rangefinder. GPS hole maps allows the player to get distances to any part of the golf course and see a full layout of each hole.
